SUMMARY

Junior Developer with experience in JavaScript and web technologies. Strong in problem-solving and project delivery. Quick to adapt to new technologies from training and projects. Skilled in building reusable components and optimizing performance with a background in responsive design.

SKILLS

- **Languages:** HTML, CSS, JavaScript, TypeScript
- **Frameworks & Libraries:** React, Next.js, Node.js, Express
- **Database:** MongoDB
- **Tools:** Git, VS Code, Netlify, Postman
- **Soft Skills:** Problem-Solving, Communication, Teamwork

PROFESSIONAL WORK EXPERIENCE

Technical Support Specialist
Fiscal Harmony | Harare, Zimbabwe

Jan 2025 – Present

- Resolved 50+ technical issues monthly for clients using QuickBooks, Xero, Sage, and Palladium
- Trained over 50 users on accounting software to ensure ZIMRA-compliant fiscalization, boosting platform adoption.
- Collaborated with developers to fix system bugs by supplying clear, step-by-step reports for recurring issues.

Volunteer Front-End Developer
DemocracyLab – [Nkomo Healthcare](#)

December 2024 – February 2025

- I rebuilt the landing and signup pages with React to make them mobile-friendly and easy to use.
- Implemented responsive layouts and gave users instant feedback when they filled out forms.

Front-End Developer Intern (Remote)
InternPulse – Remote

October 2024 – December 2024

- Collaborating remotely with a team to develop and maintain web applications.
- Developed and maintained web applications using JavaScript, TypeScript, Next.js, and React.
- Gain hands-on experience in the software development lifecycle and agile methodologies
- Implement responsive design principles to ensure cross-device compatibility.
- Built reusable components and optimized application performance for scalability.

Coding Instructor Volunteer
Uncommon – Harare, Zimbabwe
Bridging the gap in digital literacy

February 2024 – November 2024

- Contributed to teaching coding to 10000+ students through interactive activities, developing mentorship and communication skills.
- Collaborated with diverse teams to organize learning events, enhancing teamwork abilities.

Receptionist
Conpad Investments
Harare, Zimbabwe

January 2021 – December 2023

- Managed front desk operations at a busy guest house, ensuring smooth guest check-ins and check-outs.
- Handled guest payments and conducted financial transactions with accuracy.
- Performed data entry tasks, maintaining accurate records of receipts and other documents
- Developed excellent customer service and problem-solving skills while working in a high-pressure environment.

PROJECTS

- **Portfolio Website:** [View Portfolio](#) JavaScript functionality integration
- **RenergyHub:** [View RenergyHub](#) I worked with the InternPulse team to create a responsive marketplace for renewable energy products in Nigeria, using React.js and Next.js. We integrated APIs for real-time updates and prioritized scalability and user-centered design to support sustainability goals.
- **Fintech Website:** [View Fintech Website](#) I built a responsive Fintech website using Next.js, TypeScript, and Tailwind CSS, focusing on a clean design that highlights financial products and ensures optimal performance across devices.
- **KevCrypto- Real-Time Cryptocurrency Tracking App:** [View KevCrypto](#) a responsive app built with React.js, featuring real-time price updates, interactive charts, market analytics, and currency conversion (USD/EUR). Utilized the CoinGecko API for real-time data fetching and Google Charts for 7-day historical price visualizations

EDUCATIONAL BACKGROUND

Uncommon Bootcamp – Harare, Zimbabwe
Certificate in Software Engineering

January 2024 – December 2024

Relevant Coursework: Front-End Development / Frameworks, Version Control, Relational Databases, System Design

Other Courses Covered :

Digital Marketing Crash Course

UI/UX Design Crash Course

University of Zimbabwe – Harare, Zimbabwe
Diploma in Hardware Engineering

March 2018 – August 2022

Relevant Coursework: Digital Electronics, Microprocessor and Microcontroller Systems, Computer Hardware Maintenance, Network Basics, Electrical Circuits, Embedded Systems Design.

Prince Edward High School – Harare, Zimbabwe

January 2012 – November 2017

O' Level Results: Passed 6 Subjects
